

Driving efficiency. Embracing sustainability. Leading innovation.

## **Airis is the market leader in green energy / carbon reduction technology.**

We offer in-house design and manufacturing facilities and over 30 years energy industry experience. Our products include high performance LED lighting coupled with our Exilis smart lighting technology, Solar PV, electric vehicle charging points, energy monitoring and more.

Our end-to-end solution offers system design, manufacture, supply, installation, financing and maintenance of our product range. Many of our products, such as our LED lighting, are also available via our popular zero capital expenditure scheme – offering a cost neutral path to energy efficiency.

### **End-to-end solutions:**

From design and installation to monitoring and support across four key areas:

- Solar Photovoltaic & ESS
- High Efficiency LED Lighting
- Commercial Energy Monitoring
- Power Efficiency (AIRIS FLUXION®)

**We don't just supply technology - we manufacture it too:**  
**Ensuring maximum quality, performance, and value.**

### **Our clients include:**

Retail stores, supermarkets, hospitals, schools, factories, distribution centres, sports facilities, farms, transport hubs and more.

**Chilternrailways**  
by arriva

 **Persimmon**  
Together, we make your home

**NHS** **MATALAN** **serco**

## Airis Solar Photovoltaic & ESS

Airis Solar helps businesses reduce electricity costs, lower emissions, and gain long-term control over energy use. From rooftop installations to ground-mounted arrays, we engineer and install solar systems that are built around your property, energy profile, and commercial goals.

### Key Benefits:

- Save up to 60% on energy bills
- Reduce carbon footprint and meet Net Zero targets
- Lock in fixed energy rates for years
- Lower reliance on the national grid
- Increase asset value and operational resilience

### The process:

- 1: Free Site Assessment
- 2: Custom System Design
- 3: Seamless Installation
- 4: Ongoing Monitoring & Support

**AIRIS SOLAR ENERGY:** Smarter solar capability for a greener tomorrow.

## Where Airis Solar works best:

- Warehousing & Logistics
- Commercial Buildings
- Manufacturing & Industrial Sites
- Hospitals, Education & Leisure Facilities

## Finance options

- CapEx Purchase - Own your system outright
- Lease option SaaS
- Power Purchase Agreement (PPA) - No upfront cost

**AIRIS SOLAR ENERGY:** Smarter solar capability for a greener tomorrow.

## Airis LED Lighting

Airis designs and manufactures high-performance LED lighting systems that reduce energy use, enhance workplace comfort, and deliver long-term savings. Our solutions are customised for your environment and built to last - improving both aesthetics and performance.

### Key Benefits:

- Up to 80% reduction in lighting energy use
- Low-maintenance, long-life fittings
- Enhanced lighting quality
- Supports ESG goals
- Fast ROI

### The process:

- 1: Free energy consumption audit
- 2: Tailor-made lighting design
- 3: Safe, professional installation from our accredited staff (no subcontractors)
- 4: Full warranty and ongoing support

**AIRIS LED LIGHTING:** Lighting the way to efficiency & sustainability.

### Where Airis LED lighting works best:

- Manufacturing & Warehousing
- Offices & Commercial Spaces
- Hospitality & Retail
- Education & Sports Facilities
- Healthcare

### Finance options

- CapEx Purchase
- Lighting-as-a-Service (LaaS)

**AIRIS LED LIGHTING:** Lighting the way to efficiency & sustainability.

## Airis Energy Monitoring

Our Commercial Energy Monitoring platform gives you real-time visibility into how, when, and where your energy is being used - helping you cut waste, manage usage, and make informed decisions that support projects to improve efficiency and sustainability.

### Key Features:

- 24/7 Live dashboard access
- Identify inefficiencies
- Set alerts
- Track energy performance
- Generate ESG reports

### How it works:

- Smart meters installed
- Data visualised in a dashboard
- Insights guide energy usage decisions
- Full on-site training provided

**AIRIS ENERGY MONITORING:** Know more, waste less.

### Where Airis Energy Monitoring works best:

- Energy-intensive industries
- Multi-site operations
- Net Zero reporting
- ESG Driven companies

### Finance options

- Monthly subscription
- One-time set-up and ongoing support
- Bundled packages

**AIRIS ENERGY MONITORING:** Know more, waste less.

## AIRIS FLUXION PRO® - Smarter Energy Use Made Simple

AIRIS FLUXION PRO® is a patented energy-saving device, designed & manufactured exclusively in Spain by Airis. It helps reduce electricity use, improve energy performance, and lower costs. This powerful solution runs in the background to make your electrical systems more efficient, with real, measurable results.

### Key Benefits:

- Save 6–12% on energy use, quantified via typical energy baseline.
- ROI in approximately 2 years
- Reduces load resistance
- Improves equipment lifespan
- Reduces carbon emissions

### How It Works:

- Acts on all load types
- Absorbs distortions
- Enhances flow efficiency

**AIRIS FLUXION PRO®** Measurable energy consumption reduction.

## Where Airis FLUXION PRO® works best:

- Energy-intensive industries
- Multi-site operations
- Net Zero reporting
- ESG Driven companies

## Finance options

- Monthly subscription
- One-time set-up and ongoing support
- Bundled packages

**AIRIS FLUXION PRO®** Measurable energy consumption **reduction.**

Ready to reduce your energy costs, boost performance,  
and strengthen your sustainability credentials?
