Delivering Sustain**ability**

Stability

At Airis, we are proud to be a market leader in green energy and carbon reduction technology.

With over 30 years of experience and full in-house design and manufacturing capabilities, we deliver a complete, end-to-end service — from system design and product supply to installation, financing, and ongoing maintenance.

We offer a comprehensive suite of energy management services, designed to help businesses reduce energy consumption, cut carbon emissions, and achieve greater operational efficiency.

Trusted across a wide range of sectors — including retail, healthcare, education, manufacturing, logistics, and sport — we combine experience, innovation, and stability to drive long-term operational savings and support our clients' sustainability goals.

A global brand

A snap shot of the company's growth with facilities in 16 countries world-wide, represented in 20 countries. Our Headquarters is located in Spain.

Brand launched

Capability

Complimentary services and expertise for companies seeking to achieve Net Zero:
Everything you need in one place.

Solar

Deliver long-term savings, reduce grid dependency, enhance sustainability credentials, and benefit from potential government incentives

LED Lighting

Reduce energy consumption, extend the lifespan of your lighting, and improve overall light quality for better efficiency.

EV Charging Points

Meet growing demand, attract and retain talent, and enhance customer loyalty with convenient charging solutions.

Energy Monitoring

Access real-time data to quickly identify and act on potential savings opportunities.

Affordability

Save the planet and save a lot of money. The perfect proposition.

Solar Savings

Solar systems pay for themselves in just 5 to 10 years, delivering long-term savings and a smart investment in your future.

LED Savings

Achieve energy savings of 25-50% compared to traditional lighting, maximising efficiency and reducing costs.

EV Charging Incentives

With the UK's growing EV infrastructure, take advantage of available tax breaks to support your charging solutions.

Energy Monitoring

Every kWh saved lowers your bills. Live data empowers you to shift energy use to off-peak times for maximum savings.

Adaptability

AIRIS UK is a company that can match the ambition of your sustainable growth journey.

Tailored Solutions

We tailor solutions to meet each client's goals.

Scalable Systems

Our solutions adapt as your business grows, meeting changing energy demands.

Continuous Innovation

We integrate the latest technologies to stay ahead and meet the evolving market.

Responsive Support

Our team provides quick, real-time support throughout.

Reliability

Trusted by Finance, Healthcare, Education and Infrastructure.

30+ Years

In business with a portfolio of blue chip clients who trust Airis to deliver.

1,000+

Successful installations completed worldwide.

10 Million Kg

of carbon emissions removed from the atmosphere.

Accountability

Alert, attentive and 'always on'. Customer service you'll find refreshingly good.

Strong Administration & Management Team

Operating from a central location in the United Kingdom.

Installation Operatives

Covering every area within the UK.

Dedicated Account Management

One point of contact for all queries and enquiries.
